FEATURED BENEFITS

Spring 65 was designed to replicate the lush beauty of natural grass, specifically for landscape applications.

The S-Blade yarn system has a combination of field and apple green blades combined with a curly brown and olive thatch layer.

The S-Shaped blades eliminates weak points in the fibers, creating an unprecedented split resistance.

The 1 7/8" pile height highlights all the beauty of a lush thick lawn that will be the envy of the neighborhood.
