FEATURED BENEFITS

Select 60 was designed to replicate the lush beauty of natural grass, specifically for landscape applications.

The wave shape yarn system has a combination of field and olive green blades combined with a curly brown and tan thatch layer.

The W-shaped blades eliminates weak points in the fibers, creating an unprecedented spike resistance.

The 1.57" pile height highlights all the beauty of a lush thick lawn that will be the envy of the neighborhood.

PROTECTION THAT LIVES ON
MICROBAN

Featuring built-in antimicrobial product protection to inhibit the growth of bacteria, mold, mildew, and reduces odor.

FEATURED BENEFITS

Tri Color Effect - Blends 3 uniquely different tones of green: Field/Apple/Olive; replicating the color of real grass which is better than all the other turf products.

Low Luster Fiber - Use of a low luster Polyethylene resin incorporates all the UV inhibitors of other higher glass fibers currently in the marketplace. These inhibitors offer uncompromised resistance to UV exposure which result in a natural looking blade that will perform.

PROTECTION THAT LIVES ON
MICROBAN

Featuring built-in antimicrobial product protection to inhibit the growth of bacteria, mold, mildew, and reduces odor.

FEATURED BENEFITS

Supreme 90 blends 3 uniquely different tones of green, replicating the color of real grass better than all other turf products. With the use of a low laser Polyethylene resin which results in a natural looking blade that will provide resistance to UV exposure.

Due to the high bulk stanch yarn, Supreme 90 will stand straight up and bounce back when compressed. The S-shaped eliminates weak points in the yarn, creating an unprecedented split resistance.

Smart Row's wide gauge second layer primary backing creates small opening void of coating. These small openings allow liquids to pass through the backing while the coating still manages to encapsulate each backbatch of tufted yarn resulting in high strength soft bond.

FEATURED BENEFITS

Pro Putt is the ultimate putting surface, designed for a higher level of play. Texturized yarns enhance performance and provide an excellent playing surface that is durable, resilient and has a multidirectional surface.

Whether it's for practicing or competitions, Pro Putt is ideal for golf courses and private clubs alike - varying the amount of infill, the speed and spin are adjustable to the client's play specs.

Can be installed indoors and outdoors with no maintenance and UV stabilized with top drainage.

FEATURED BENEFITS

Performance Play is constructed to offer the best of both worlds using our high performance monofilament S-blade with a fibrillated slit film. S-blade with Luster Guard ribbed surface texture is the lowest luster UV stabilized turf yarn in the industry. These microscopic ribs eliminate the shiny mirror effect that makes artificial grass look like plastic.

This hybrid blend of 2 premium yarns is a top range solution for contact sports to playgrounds. Quite simply, Performance Play will deliver an excellent standard of play and longer useful life.

FEATURED BENEFITS

Offered in slit film with nylon thatch combination, Elevate 48 provide excellent performance characteristics and will hold up to the wear of an indoor or outdoor facility that is in constant use. Ideal for smaller multi-purpose and agility training areas. Easy, one-step glue application. Can be used over a closed-cell foam pad or rubber shock pad. Double slit application allows for more manipulation of the turf pad and surface during installation.

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

HITTING PAD

A significant upgrade to typical turf hitting mats, Magnolia Turf's Hitting Pad combine our modular shock-absorbing rubber foundation with our Performance Turf to provide a realistic experience from tee shots (using a real tee) to wedges.

- *A cost-effective solution for simulator and golf room set ups*
- *Turf allows for realistic ball flight and is soft underfoot*
- *All-nylon fibers are UV resistant and extremely durable*
- *Tee up from anywhere on the mat using a standard tee right in the turf*
- *Modular rubber base provides a solid foundation with unmatched shock absorption and keeps the mat from sliding underfoot*
- *Available in our natural looking on-course green color turf*
- *Assembles in just a few easy, tool-free steps*
- *Custom sizes available*

WWW.MAGNOLIATURF.COM

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

PERFORATED DRAIN MAT

The Perforated Drain Mat consists of a polymeric sheet cusped under heat and pressure to form a high flow, high compressive strength dimpled drainage core. The core is available as an impermeable sheet or punched, based on application. Impermeable core works well on slabs/indoor surfaces as it protects urine from being absorbed by the concrete.

- 4' x 50' (50 lbs each)
- Creates open-air space voids that allows urine and other liquids to be washed down through the turf and infill
- Thickness (ASTM D-4716) 0.40 inch
- Flow (ASTM D-4716) 21 gallons per minute per foot width

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

WEED BARRIER CLOTH

The Weed Barrier cloth is a spun bond polypropylene fabric that has a hydrophilic treatment which allows more air and water to pass through thus preventing sunlight and nutrients from reaching the places weeds tend to grow. Suitable for use in flower beds, under walkways, greenhouses, under decks, under artificial turf and much more

- Comes in a 6' x 300' Roll
- Minimizes light penetration - suppresses weed growth and prevents weed-seed germination
- Thickness (ASTM D-4732) 0.40 inch
- UV protected fabric allows air and water to reach plant roots while stopping weeds
- 8 year warranty
- Safe and easy to install

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

ENVIROFILL

Envirofill® can be used as infill for artificial grass lawns, playgrounds and putting greens. Smart Fill has a special coating containing antimicrobials to help prevent the growth of bacteria, mold and mildew. It helps keep turf blades standing up and prevents damage to blades.

- *Round shaped coated sand that helps reduce fluid absorption and improve drainage*
- *Integrated with anti-microbial that helps control growth of bacteria, mold, and odors.*
- *Improves Turf Life*
- *Non-Toxic*
- *Available in 12/20 and 30/ 50 blend*

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

SILICA SAND

Our silica sand is produced in a modern plant, kiln dried and comes in a natural golden color. It's been tested and meets USGA approved requirements for bunker sand. It's perfect for non-pet artificial turf installations. It comes in 12/20 grit and 16/30 grit size.

- *Most common infill used for turf installation projects*
- *USGA Approved*
- *Available in 50 lb bags of 12/20 and 16/30 grit*
- *Not recommended for pet applications*

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

UNGALVANIZED NAILS

Used to help secure the turf to the base material, non-galvanized nails expand and rust over time - creating a more secure hold.

- *Ungalvanized Nails rust so it anchors the turf in place*
- *40d Bite Common 5"*

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

LANDSCAPE STAPLE

The U-shaped, 9-Gauge sod staples are ideal for securing artificial turf seams and erosion blankets or geotextiles in place. The legs of the staples are 6 in. long and arch of the staples is 1 in. wide.

- 9 gauge
- 1,000 per box
- 6 in. Long staples dig into soil or base rock for good grip
- Holds landscape fabrics in place
- Used for seaming turf and anchoring down the turf
- Can also be used to secure irrigation hoses

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

BENDER BOARD AND STAKES

Bender Board is a unique framing material that can be used to simplify the installation process of artificial grass/turf. If your garden needs a boost, perhaps it's time to rethink your edges. For smooth, sinuous curves, it's tough to beat bender board. The pliable material flexes easily and is relatively inconspicuous, with its top barely visible aboveground. Bender Board can provide free-form or straight line perimeters.

- Board - 1" x 4" x 20' Stakes 1" x 2" x 12"
- Used to separate grass and flower beds during turf installations
- Stakes are used to anchor the bender board into the ground
- 5 stakes to every bender board
- Stakes and boards are plastic

MAGNOLIA TURF Co
PREMIUM SYNTHETIC GRASS
MAPEI TURF SEAMING TAPE

Ultrabond Turf Tape is a PET-based, spun-bonded, nonwoven fabric tape designed specifically to work with MAPEI turf adhesives for seaming synthetic turf. Ultrabond Turf Tape is waterproof and provides superior tensile strength and tear resistance, which are vital for installations of professional athletic playing fields. It is also perfectly suited as a seaming base for other synthetic turf applications, including installations of residential landscaping, playgrounds and golf courses.

- 1' x 200'
- Used to seam turf together
- Superior tensile and shear strength
- Recommended use with Mapei products
- Meets FIFA standards

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

PE - 51 ENZYME CLEANER

PE-51 is your natural solution for maximum waste degradation on any surface. Our exclusive blends of bio-engineered bacteria are radically different from other enzyme cleaners available. They are resistant to chlorinated products, disinfectants, bleach, and high acid or alkaline conditions. PE-51 is non-toxic and certified salmonella free, non-pathogenic and contains only the naturally occurring bacteria that reduce BOD (biochemical oxygen demand) and COD (chemical oxygen demand) 80% within 5 days. Will NOT corrode burn, dissolve or eat away the surface by chemical action like other cleaners. PE-51 has a shelf life is 30 years!

- Neutralizes & eliminates odors from outdoor spaces
- Safe on lawns and landscaping when used as directed
- Non-Toxic

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

PUTTING GREEN KIT

Kit includes Cup, Flag and Cover

- Cup is 4-1/2" wide white USGA regulation golf putting cups.
- Flag is 20" tall & 1/2" in diameter
- Shaft comes with a top handle and a riveter base
- Banderite aluminum with the most chip-resistant coating around

MAGNOLIA TURF Co

PREMIUM SYNTHETIC GRASS

GRANDI GROOM TURF RAKE

The Grandi Groom Turf Rake is a 18 inch wide professional grade artificial grass and synthetic turf grooming rakes. Unlike metal rakes or brooms, these strong brush fibers easily work in between synthetic grass blades to brush infill products. Therefore, placing the infill into place and pulling the blades upright without damaging the artificial grass blades. Rake contains a 53 inch long handle to easily hold for maintenance care and grooming of artificial grass and synthetic turf surfaces. To bloom artificial turf or synthetic grass fibers back into place, simply use short strokes over your lawn to pull fibers upright again. This blooming process allows for synthetic fibers to be pulled back up into place for a fabulous refreshed looking surface.
